

Measure Mobile App

Why Measure Mobile?

Every flooring estimator today has a need to quickly, accurately and professionally estimate flooring projects. Whether they are selling or simply estimating, they need to provide accurate quantity and job-site information while still in the field.

If your Estimating and Sales Staff struggle with

- Quickly and accurately measuring, estimating and quoting jobs
- Communicating between Estimators and Sales Staff
- Closing the sale

Measure Mobile solves these issues and more.

Fulfills the Needs of Each Role

Salespersons

- Collaboration on projects in a shared project library
- Easily create and organize multiple options per project to share with the customer
- Integrate with RFMS for real-time access to products and services
- Customizable checklist ensures that important addons are never forgotten
- Apply a margin, select a price level or enter a Fixed Grand Total to dial in your selling amount
- Export to RFMS Mobile to create quotes and orders in real-time
- Wow your customers by providing an accurate, professional quote in record time

Estimators

- Demonstrate professionalism to your customers by using a mobile device to measure and estimate
- Works with your Leica Disto Measuring device for accurate room drawings
- Document critical job-site information with notetaking and photo attachment features
- Fully adjustable roll plan is great for both new and experienced estimators
- Work offline when a data connection is not available

Built to Estimate from Anywhere

1. Draw rooms using a Leica Disto Measuring Device or the TouchDraw Feature

2. Search for and apply flooring product from RFMS

3. Review the Checklist to include any necessary addon products and services

4. Confirm and adjust the pricing on the Worksheet

5. Send to RFMS and email the Quote to the customer

Measure Mobile Meets Your Estimating Needs:

- ✓ Accuracy
- ✓ Speed
- ✓ Ease of Use
- ✓ Collaboration
- ✓ Integration
- ✓ Professionalism
