## Warehouse Mobile App

### Why Warehouse Mobile?

Every Warehouse needs a mobile solution that provides workers the information and ability to perform their job efficiently. Common tasks are simplified from receiving to staging to putting away and even pick-up.

### If your Warehouse Staff is struggling with:

- Efficient receiving of purchase order lines
- Knowing what POs are outstanding and expecting to be delivered
- Handling order pickup requests

Warehouse Mobile solves these issues and more.

## Fulfills the needs of your Warehouse Staff by:

- Mobile dashboard of open Purchase Order lines to be received
- Scan Roll Numbers or Bills of Lading to quickly receive e-commerce inventory
- Quickly receive inventory directly to a Bin Location or to a Staging location for put away later
- Move inventory to/from any location within a store

- Efficiently prepare and process Order Pick Ups
- Document damage or other exceptions during the receiving process using photo attachments and notes

## How it Works:

View Open  
POs Dashboard

Scan Roll Tags  
and BoL Barcodes

Order Pickup  
Dashboard

Receive  
Inventory

Attach Photos  
and Notes

## Warehouse Mobile Meets Your Needs:

- ✓ Receiving
- ✓ Stage
- ✓ Put Away
- ✓ Pick Up

Get it on the following app stores:
