

Software Developer Co-op

Tuscaloosa, AL • Cooperative Education

We are looking for a Software Developer Co-op to join our RFMS Development team. Our goal is to find someone who is motivated and interested in building their career within the tech industry.

As a Co-op at RFMS, you will have the opportunity to design, code, and debug applications in various software languages. You will be tasked with multiple Development and QA projects from Senior Developers. This position will work closely with other departments to ensure that the software is continually improving based on changing technology and client/user feedback.

What we look for

Highly motivated students with excellent critical thinking skills and the ability to prioritize shifting workloads in a rapidly changing industry. A team player who is an effective communicator and can collaborate with others to complete results-driven projects.

If you are interested in gaining valuable experience, then this role is for you.

To qualify, you must be

- Pursuing a bachelor's degree in Computer Science, MIS, or related degree
- An excellent communicator, both oral and written
- Willing and motivated to learn new skillsets and languages

What working at RFMS offers

We offer the opportunity to gain high-level experience and progress your career within the software industry. The ability to work closely with developmental and QA teams members with well over 30+ years of software-related knowledge.

About Us

RFMS is the leading software development company focused on providing modern-day technological solutions to the floor covering industry. We have over 35 years of experience streamlining flooring businesses and making owners more profitable.

The RFMS Team consists of over 100 team members operating out of our Corporate Office located in Tuscaloosa, Alabama, and various remote locations throughout the US, as well as the RFMS Australasia Office in New Zealand.
