Raising The Bar For Integrated Payments

RFMS and Clover Connect have joined forces to bring seamlessly integrated payment processing to the software you know and love. By taking advantage of Clover Connect's complete omni-channel solution, your payment processing will be streamlined saving you time and money.

ACCEPT PAYMENTS ANYTIME, ANYWHERE

The CardPointe Integrated Terminal Solution via Ingenico devices manages all card present transactions.

Get paid in the field with Clover Connect's CardPointe SDKs. The Mobile SDK can be combined with the ID TECH VP3300.

Clover Connect's Hosted iFrame Tokenizer securely processes card not present transactions.

Additional Benefits

SECURITY YOU CAN COUNT ON

Innovative security features like tokenization, transaction filters, and point-to-point encryption provide the ultimate data breach protection and PCI scope reduction, giving you peace of mind for each and every transaction you process.

REAL-TIME REPORTING

CardPointe gives users the power to manage processed payments and view full transaction lifecycle reports in real-time. Effortlessly void, capture and refund - from a desktop, tablet or smartphone.

INTERCHANGE OPTIMIZATION

Clover Connect uses best-in-class processing habits to qualify you for the lowest interchange rate possible for every transaction.

NEXT DAY FUNDING

Never wait to get paid again. With Clover Connect, you'll have access to next day funding to streamline your cash flow.
